FINESCE

Benefits of using the future internet:

- lower costs for application development
- easy access for new partners
- scalability of applications

Future Internet of Energy: organising many...

- (volatile) distributed energy production
- (flexible pro-sumers) consumers
- electric vehicles (as consumers and storage)

SMART
UTILITY
SERVICES

FINESCE open call for Start-ups and SME's

- involvement of new partners for specific tasks (1.2 Million €)

FINESCE Student contests

- student contest (internships for winners)
- hackathon

FINESCE Innovation Community (www.finesce.eu)

- for all interested to follow what we are doing
- membership is free of charge

Summary

- FINESCE is one of the largest field test in the area of Smart Energy: it brings Smart Grid to reality
- FINESCE is also a unique venue for the tight collaboration between ICT and power industry
- FINESCE significantly contributes to the goals of the Future Internet PPP managed by the EU commission creating the condition for a competitive advantage to the European ICT industry
- FINESCE is also an open platform: open calls give the chance to join or participate to the project after its official start
